SPANISH

¡Bienvenidos a la clase de español!

Learning Spanish is easy for preschoolers! Preschool is the perfect age to learn language. Young children find it easy to learn languages with stories, songs, games and crafts. As you know, young children have powerful imaginations. They love stories, plays, and songs. We will read stories, sing songs, play games, and make crafts to help children associate images with vocabulary.

STEAM – Science

with Miss Heidi

Science in September!

Pre-K3's and Pre-K4's

Preschoolers and most children love science when it is fun! And we will have fun this year as we have in the past. I make science fun by being very visual with the lessons and very hands-on. The children get to create, experience, learn and use their imaginations.

I will visit the Preschool once a month. We will plan on going outside every time we meet, unless the weather does not cooperate, so please dress your children appropriately. Especially remember coats and jackets in the winter.

This Month, September, we discussed weather and hurricanes with the soon to be arriving Hurricane Irma.

The topics for the rest of the year include:

October – Fossils and Magnets

November – Seeds and Growing Food

December – Christmas Trees
