PLAYBALL IS THE FIRST PROGRAM TO USE SPORTS AS A MEANS TO PROVIDE CHILDREN WITH A SOUND BASE TO DEVELOP EVERY ASPECT OF THEIR LIVES. WE TEACH EVERY SPORT IN EVERY SKILL THAT WE TEACH. WE TEACH THE CONCEPT!

WHAT IS PLAYBALL?

Playball is not just another ball program. It is a highly specialized program, devised and continually updated by sports experts, occupational therapists and educational specialists. By giving children competence in sports, we help them develop skills that are not associated with sports at all.

HOW DOES IT HELP CHILDREN?

We use the medium of sports, not only to improve gross motor development, increase concentration skills, build low muscle tone, to teach children to be competent in hand-eye/foot-eye coordination and improve balance; but sport is also used to teach basic, yet essential life skills.

At Playball your children will learn persistence, courage, cooperation, respect, positive relationships, self-worth, communication, responsibility, and countless other attributes. We address the needs of the whole child – dealing with the emotional, social, cognitive, and physical.

WHO CAN DO PLAYBALL?

Playball is created to suit the needs and abilities of ALL children – to give them the confidence to participate in all activities, both on and off the field. At Playball, children learn the basis for such sports as baseball, basketball, hockey, tennis, soccer, volleyball, and more.
